ABOUT US

Stretch Wrap is a manufacturer, importer and distributor of plastic films, packaging materials and complementary products.

WE PRIDE OURSELVES ON:

- Our customer focus and providing great service
- Supplying premium products you can trust
- Delivering what we promise
- Leading the way in recycling the plastic we supply, our customers use and creating new products from recycled plastic materials
- Being New Zealand owned and operated

WHAT MAKES US DIFFERENT?

- We are not trying to be all things to all people. We are specialists in our field and you get the best the industry has to offer
- We offer a circular lifecycle for the plastic we supply and our customers use, recycling it into new products
- We are continually innovating to find better products and techniques to improve our service to you
- You are dealing with the founders and shareholders. Our success depends on your success
- We don't talk, we deliver!

OUR GREEN COMMITMENT

Just because it is "recyclable" doesn't mean it gets RECYCLED!

We are committed to working with our customers to reduce the volume of plastic packaging they use and recycle what they do use.

WE WILL:

- Find a reliable, cost-effective way to use less plastic and deliver a better result
- Use recycled plastic in our products wherever possible
- Support our customers in recycling their plastic to guarantee that it is in fact recycled so they can demonstrate their GREEN credentials
- Lead the way in recycling the plastic we supply, our customers use and creating new products from recycled plastic materials

COMMITTED TO CLIMATE

Stretch Wrap is a proud supporter of Trees That Count, a programme managed by environmental charity Project Crimson. We're helping Kiwis plant native trees across Aotearoa New Zealand.

PRODUCT OVERVIEW

Using our wraps and machines could reduce your costs by more than 75%

WE'RE IN THIS RACE TOGETHER!

- For machine wrapping, combining a high stretch film with a pallet wrapping machine that has been optimised for the wrap can greatly increase the stretch achieved, reducing the plastic used to wrap a pallet
- Stretch Wrap's machine wraps are certified to stretch up to 300%, delivering 4m of film for every 1m of film purchased. This equates to up to a 75% reduction in the plastic used and cost per metre
- Combined with a stronger, lighter weight nano film, you can achieve longer rolls, thus more wraps per roll, further reducing your costs

PRODUCT OVERVIEW

Stretch Wraps (LLDPE)

Using a cast nano technology film, which is made up of multiple nano layers per layer of film, enables you to use a lighter film to achieve better results with less plastic. This reduces your costs and is better for the environment. Stretch Wrap's films are all nano technology and at 55 layers, they are the highest layer film available in New Zealand.

STRETCH WRAPS

- Bundle Wrap
- Pre-Stretch
- Hand Wrap
- Machine Wrap
- Custom Wraps

DESCRIPTION

- Bundle wraps manufactured in New Zealand by Stretch Wrap
- Smart Stretch Nano55 Evolution and Revolution Pre-Stretch hand wrap means a tighter load with less plastic
- Power Stretch Nano55 hand wrap with certified stretch of up to 150% (1 metre to 2.5 meters)
- Ultra Stretch Nano55 machine wrap with certified stretch of up to 400% (1 metre to 4 meters)
- With our own manufacturing facilities in New Zealand, we can customise your wraps

PRODUCT OVERVIEW

Pallet Wrapping Machines

Stretch Wrap supplies and services pallet wrapping machines which we optimise and pair with the best film to maximise their efficiency and performance to meet your unique needs. This ensures you are using the least amount of pallet wrap and minimising your costs.

PALLET WRAPPING MACHINES

- Semi-Automatic
- Fully Automatic
- Accessories (scales, ramps etc.)
- Access to a Standby Machine

DESCRIPTION

- Our range of pallet wrapping machines are cost effective and we will assist you in setting up and optimising the machine to maximise operating performance
- We can service and maintain your machines
- Customers have access to a standby pallet wrapping machine in the event of a peak demand event or failure of one of their machines

PRODUCT OVERVIEW

Stretch Wrap Accessories and Services

STRETCH WRAP ACCESSORIES

- Pallet Top Covers - sheets and continuous roll
- Hand Wrap Dispensers - light weight dispensers making pallet wrapping easy and improving health and safety

AUDITS

- We can audit your current wrapping processes and results for both hand and machine wrapping, testing containment force and plastic used
- Provide recommendations to improve performance and reduce costs and plastic used
- Results are presented in a written report

We'll visit your premises to review your current pallet wrapping practices and provide recommendations to reduce costs and improve your environmental impact.

PRODUCT OVERVIEW

Industrial Wraps And Films (LDPE)

LDPE (polythene) sheets made from 100% recycled and recyclable materials ranging from 60mu wraps to 300mu high impact under slab vapor / gas barrier membrane films.

DAMP PROOF MEMBRANES

- 250mu to 300mu black polyethylene film
- Customised coloured polyethylene film

DESCRIPTION

- AS/NZS certified high impact performance, multilayer under slab vapour/gas barrier designed to retard moisture migration through concrete slabs and concrete walls
- Made from 100% recycled materials

INDUSTRIAL WRAPS

- 60mu to 125mu
- Various sizes
- Black, White and Clear
- Branded wraps

DESCRIPTION

- Suitable for timber wraps, protection of equipment and materials etc.
- Made from 100% recycled materials
- Fully recyclable

PRODUCT OVERVIEW

Warehouse and Industrial Consumables

STRAPPING

- Polypropylene (Hand and Machine)
- PET (Hand)
- Corded (Hand)
- Woven (Hand)
- Edge Protectors

BUCKLES AND SEALS

- Heavy duty galvanised buckles
- Standard wire buckles
- Seals

TAPES

- Clear Packaging Tape
- High Adhesive PVC Duct/Poly Joining Tape
- Silver Cloth Duct Tape
- Branded Tapes

TOOLS

- PET Strapping Sealer
- Strapping Tensioner
- Tape Dispenser

PRODUCT OVERVIEW
